Are VACCINATIONS up to date? Certificate sited ...  ...

Describe your dog's PERSONALITY

Is your dog capable of scaling over or squeezing through a 1.8m high deer fence?

Any special DIETARY/SLEEPING requirements?

Any existing MEDICAL CONDITIONS?

FITNESS level? Basic commands ✓ : COME SIT WAIT

DATES & DAYS for care :

The terrain here is rugged compared to suburban parks and residences. Please tell us if your dog is not used to off-leash running and is likely to run away if taken off-site. While we do our best to keep your dog's safety in mind at all times, occasionally dogs will get injured and require veterinary treatment at the owner's expense.

BIG DOGS is a medium security homestay. We don't cage dogs separately, but the freedom they have here is not without risk. While we exercise due and reasonable care, owners must take full responsibility for their dog's behaviour resulting in injury, loss or escape, and release BIG DOGS from all claims and liability.

Finally, I have a duty to keep incessant barking at bay for guests and neighbours. Occasionally I may use a premium quality barking collar (SBC-R from Sportdog) which works with light static stimulation and usually achieves instant 'peace' with no harm to the dog. However, please advise if you DO NOT wish a bark collar to be used on your dog.

I, owner of agree to the above terms.
